PerkoPower Concealed Door Closers

PerkoPower is a controlled, concealed hydraulic door closer conforming to UL 10B, UL 228, UL 10C and ANSI 156.4, making it ideal for many commercial, leisure, public and domestic fire door applications.

Available with solid brass end plates in Satin Chrome plate or Bronze finishes (other finishes available special order). Invisible when the door is closed, PerkoPower offers the ultimate in door control without the need to compromise on the appearance of the door itself or the aesthetics of the finished product.

- Fully concealed when the door is closed
- Fits in 1-3/4" doors
- Suitable for latched and unlatched installations
- Adjustable closing speed and power latching action
- Endurance tested to 500,000 closing cycles
- Unique twin-power mechanism
- UL 10B, UL 10C, UL 228, ANSI A156.4 approved
- 10 year warranty
- Conforms to ADA maximum opening force

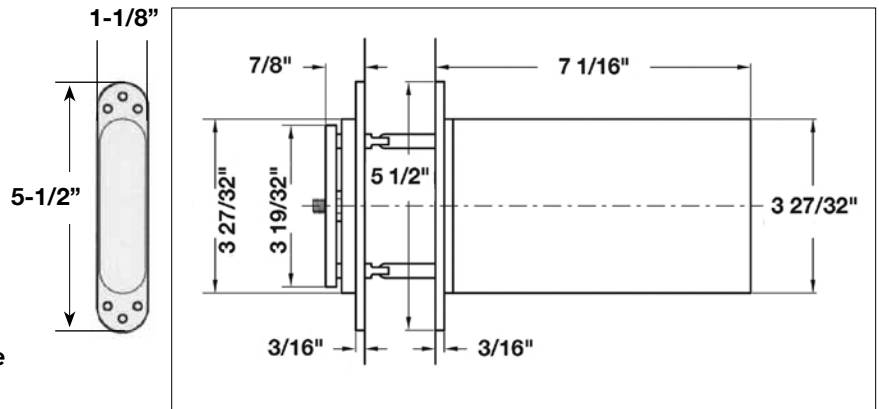

Bronze finish

Satin Chrome finish

Other finishes available special order.

* Reversible mortise for either door or jamb mounting
