Striplox Connectors

Striplox Concealed Connectors are used on solid timber, MDF, composite panels, aluminium and more. Striplox is easy to install, adjustable, and made from durable, heat stabilized glass reinforced nylon. With unparalleled strength Striplox will meet all required needs in numerous applications.

Aesthetically, Striplox replaces visible screws, brackets, fittings and connectors to provide leading edge design solutions. They can be surface or recessed mounted in either vertical or horizontal positions.

Striplox Pro 23

Ideal for installing modern timber battens, hanging cabinets, floating shelves, bookcases, artwork frames, mirrors and other panels. Strong, versatile, with a wide range of uses. Has a narrow profile for tidy concealment.

Striplox Clip 50

Designed with some smaller precise applications in mind, this versatile and strong connecting system can be used in the tightest of places quickly and efficiently in commercial, architectural or domestic applications. It offers an advantage when being used on a less than perfectly square wall with its unique locking system and the option of permanent or reusable assembly. The locking key can also swivel for easy positioning.
