* The Breakaway Lever design allows the lever to break away and drop to the "down" position when abused, discouraging further abuse and protecting its internal parts. The "downed" lever can then be snapped back into an operable position easily, thus preventing needless loss of door operation and costly maintenance time.

FIRE RATED, MORTISE, OR OTHER SPECIAL PANIC HARDWARE

SPECIAL PANIC HARDWARE

Von Duprin devices may be ordered for FIRE RATED doors, MORTISE applications, NARROW stiles or situations requiring special trim functions, finishes, door alarms, or remote door control systems.

4

Please call for more information and quotes. Lead time is usually 1-2 weeks, however, some items may take longer.

88-F Rim Fire Exit Device

88-F fire exit rim devices for all types of 4' X 8' single and 8' X 8' double doors with 9954 mullion, UL listed, 3 hours. This device is handed.

8875 Mortise lock exit device

8875 mortise lock devices for all types of single or double doors, UL listed for accident hazard installations. Fits stock hollow metal doors with 86 cutouts and door stiles as narrow as 4 3/4". Field reversible but comes handed from factory. The 7500 mortise lock is equipped with a 3/4" anti-friction latch bolt which is field reversible without removing the lock from the door. It has a non-handed auxiliary bolt for deadlocking and a faceplate with an adjustable bevel.

8875 & 8875-F (also available Fire-Rated)

99-F Rim Fire Exit Device

99-F Rim fire exit devices for all types of single doors up to 4' x 10' or 8' x 10' double doors with 9954 or 9854 mullion, UL listed for fire exit hardware. Devices are ANSI A156.3 – 2008 Grade 1.

9975 Mortise lock exit device

9975 Mortise lock device for all types of single or double doors, UL listed for Panic exit hardware. Devices are ANSI A156.3 – 2008 Grade 1. Fits stock hollow metal doors with 86 cutout and door stiles as narrow as 4 3/4". The mortise lock device is non-handed except when the following device options are used: -2 (double cylinder) or SS (signal switch). The 7500 Mortise lock is equipped with a 3/4" anti-friction latch bolt which is field reversible without removing the lock from the door. It has a non-handed auxiliary bolt for deadlocking and a faceplate with an adjustable bevel.

9975 & 9975-F (also available Fire-Rated)

SOFT CLOSE TOP SLIDE

Easy Soft DN 80

Concealed Soft-Close for Doors between 110 - 176 lbs.

Soft Close for Sliding Doors

The Easy Soft DN 80 is a soft close system made of 2 parts: 1 Easy Soft DN 80 Kit and 1 Annex Kit. Use 1 Easy Soft DN 80 for soft close in one direction only. Use 2 of them for soft close in both directions.

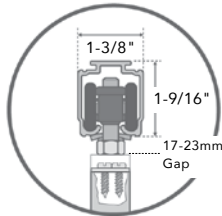

Use DN 80 CF or DN 80 FT Annex Kits depending on mounting type and door thickness. Minimum door width with 1 Easy Soft: 21-3/4", 2 Easy Soft: 31-1/4". Use with U 21 Tracks.

Finished opening height - door height: 2-7/8" (73mm)
 Finished floor to door bottom: 7/16" - 5/8" (10-15mm)
 Top of door to bottom of track: 13/16" - 1" (20-25mm)

4

Flat Track by Leatherneck Hardware, Inc.
Designer Sliding Door Hardware

Flat Track Hardware styling dates back to the turn of the century when it was used in warehouses and industrial settings. Today this look is perfect for unique interior/exterior applications. The hardware can be customized for specific applications, is space saving, and will enhance any opening. Available in clean, simple styling or can be designed to be ornate depending on the application. Comes in several finishes and styles.

Capacities are 400 lb and 800 lb units.

Flat Track Hardware is available for order in complete kits for single slide openings. The hardware can also be ordered as individual components.

SLIDING DOOR HARDWARE

KV SLIDING DOOR TRACK

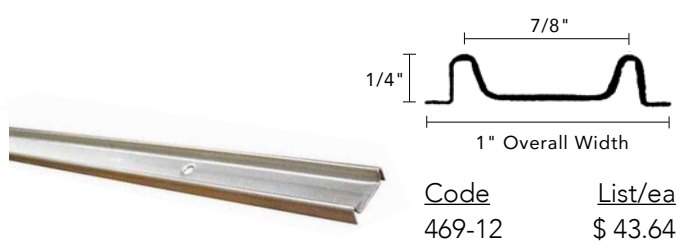

KV track is used with KV rollers and sheaves for sliding wood doors. Note sheave numbers used with each style.

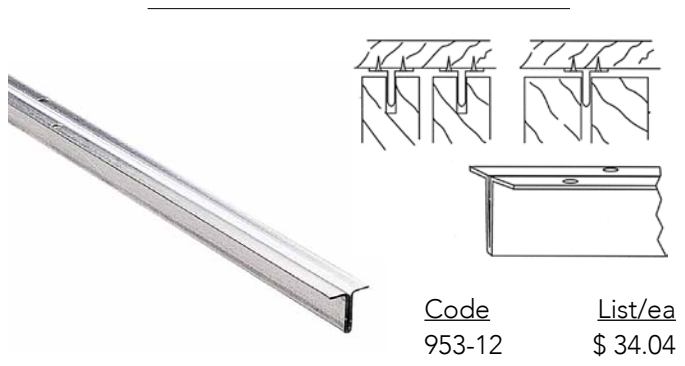

KV 455 Single track for sliding doors. With ridge up use 427, 429, 430, and 594 sheaves. With ridge down use 592 sheave. Stainless Steel finish. 12' lengths. 10 ea/ctn.

KV 467 Single track for sliding doors. Use with 427, 429, 430, 594 sheaves. Plain Steel finish. 12' lengths. 10 ea/ctn.

KV 469 Double track. Zinc plated steel. 1/4" high x 1" wide. 12' lengths. 10 ea/ctn.

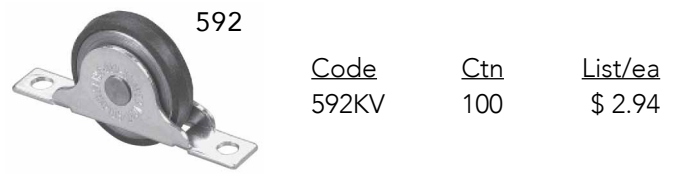

KV 953 Upper guide. Separates 2 sliding doors or use as a top guide for a single door. Pre-coated Steel. 5/8" W x 5/8" H. 12' lengths. 8 ea/ctn.

KV SLIDING DOOR SHEAVES

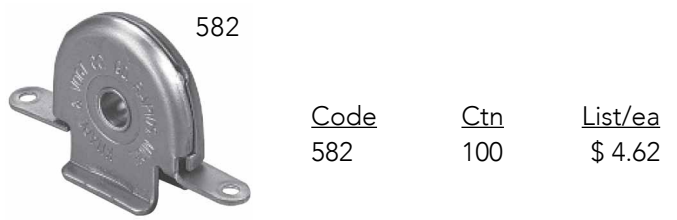

The 429 is a plain bearing sheave. The 427 & 430 are ball-bearing sheaves.

Code	Wheel Dia.	Frame	Ctn	List/ea
427KV	1-3/16"	2-15/16" x 1/2"	50	\$ 5.94
429	1"	2-1/4" x 3/8"	100	6.26
430KV	1-3/8"	2-3/4" x 1/2"	50	9.13

The 592 nylon sheave is for thin doors. Uses 455 track, inverted. 1-3/16" dia. roller. Frame: 9/32" x 2-1/4".

Use with 467 track. Enclosed nylon sheave roller for light doors. Case size: 1-1/4" x 5/16". Screw fastened. Flange 2-1/4" x 5/16".

The 607 is a heavy duty sheave with a side fastening plate. Round groove, ball-bearing steel wheel. Zinc plated steel frame. Use with #455, #467, & #469 track. Frame: 2-5/16" x 1-5/16", Wheel dia: 1-3/8".
